**International
Environmental Fair**

Concurrently with:

**BUILDING FAIRS
BRNO 2012**

**24.–27. 4. 2012
Brno – Czech Republic**

BVV
Veletřhy
Brno

19 Flood control

20 Waste processing and reuse

- 20.1 Waste collection and transportation equipment
- 20.2 Machines and equipment for waste treatment
- 20.3 Recovery of raw materials from wastes, recycling
- 20.4 Composting lines
- 20.5 Waste fermentation equipment
- 20.6 Waste heat treatment
- 20.7 Waste disposal and landfilling
- 20.8 Waste disposal by solidification
- 20.9 Waste disposal by biodegradation
- 20.10 Technologies of dangerous waste disposal
- 20.11 Consultancy in waste treatment sector
- 20.12 Elaboration of studies in the waste management sector
- 20.13 Transportation of dangerous wastes and pollutants
- 20.14 Complex solution of waste treatment issues
- 20.15 Complex take-over of waste management sector by in-house staff to order
- 20.16 Reduction of waste production
- 20.99 Waste processing and reuse other

21 Air and flue gas cleaning

- 21.1 Devices and instrumentation for maintaining clean air on the workplace
- 21.2 Equipment for separation of solid and liquid pollutants from air and flue gases
- 21.3 Equipment for separation of gaseous pollutants from air and flue gases
- 21.4 Parts of HVAC systems for air cleaning processes
- 21.5 Components and products for air mass cleaning
- 21.6 Equipment for flue gas desulphurization and denitrification units
- 21.7 Flue gas cleaning installations for municipal and industrial waste incineration plants
- 21.8 Reduction of radon concentration in buildings
- 21.9 Consultancy in the field of air purity protection
- 21.10 Design works in the field of air purity
- 21.11 Reconstruction and refurbishment of equipment for air mass cleaning
- 21.12 Service and repairs of equipment for air mass cleaning
- 21.99 Air and flue gas cleaning other

22 Noise level reduction

- 22.1 Noise-insulation materials
- 22.2 Anti-noise absorption walls, panels
- 22.3 Anti-noise cabins, screens, walls, barriers
- 22.4 Noise silencers
- 22.5 Shock and vibration absorbers
- 22.6 Soundproof windows
- 22.7 Designing of anti-noise devices
- 22.99 Noise level reduction other

23 Soil and landscape protection

- 23.1 Machines and equipment for rehabilitation of soil damaged by agriculture
- 23.2 Machines and equipment for agricultural land reclamation
- 23.3 Engineering for restoration of areas after removal of the old development
- 23.4 Decontamination and revitalization of water streams and tanks
- 23.5 Environment-friendly building materials and components
- 23.6 Non-industrial environmental protection products
- 23.99 Soil and landscape protection other

24 Environment-friendly technologies for agriculture, food and industry

- 24.1 Biotechnologies
- 24.2 Ecological agriculture
- 24.3 Growing of healthy food
- 24.4 Alternative power sources
- 24.5 Energy-saving devices and technologies
- 24.6 Packaging engineering and materials harmless for the environment
- 24.7 Environment-sound chemicals
- 24.8 Waste free technologies
- 24.99 Environment-friendly technologies for agriculture, food and industry other

25 Removal of old environmental burdens and consequences of ecological accidents

- 25.1 Devices for establishment of pollutants in soil and soil air
- 25.2 Devices for establishment of pollutants in waters
- 25.3 Hydrogeologic surveying for establishment of pollution in subsoil
- 25.4 Removal of pollutants from the rock environment
- 25.5 Soil cleaning
- 25.6 Old landfill rehabilitation and reclamation
- 25.7 Removal of pollutants from surface and ground waters
- 25.8 Rehabilitation of chemical sites
- 25.9 Rehabilitation of polluted industrial zones
- 25.10 Disposal of wastes arisen in the process of rehabilitation
- 25.11 Removal of organic pollutants
- 25.12 Devices for signaling of ecological accidents
- 25.13 Technology for prevention of emergency pollutant leaks
- 25.14 Protective clothes and aids for work with dangerous and toxic pollutants
- 25.15 Consultancy in the field of old environmental burdens and ecological accidents
- 25.16 Decontamination projects
- 25.99 Removal of old environmental burdens and consequences of ecological accidents other

26 Instrumentation for environment control

- 26.1 Control and regulating systems for environmental technology
- 26.2 Instrumentation for air and flue gas analysis
- 26.3 Equipment for ionizing radiation measurements
- 26.4 Instrumentation for noise and vibration measurements
- 26.5 Instrumentation for soil analysis
- 26.6 Monitoring in the environmental sector
- 26.7 Accredited test laboratories
- 26.8 Production of measuring devices for the environmental sector to order
- 26.9 Complex equipment of laboratories
- 26.10 Hardware and software for environmental protection
- 26.11 Communication engineering for data transmission
- 26.99 Instrumentation for environment control other

27 Literature, services, research, environmental protection associations

- 27.1 Literature and journals from the environmental sector
- 27.2 Services
- 27.3 Integrated prevention and pollution control (IPPC)
- 27.4 Consultancy and trading in CO2 emissions
- 27.5 Research in the environmental sector
- 27.6 Environmental protection associations
- 27.99 Literature, services, research, consultancy other
