1 FIRE EQUIPMENT AND SERVICES

- 1.1 Fire fighting trucks
- 1.2 Sound and light warning devices for vehicles; special lamps
- 1.3 Turntable ladders, lifting platforms
- 1.4 Fire-escape trailers with accessories
- 1.5 Containers for use in fire protection and during environmental incidents
- 1.6 Portable aggregates and equipment for fire extinguishing
- 1.7 Portable, mobile and trailer fire fighting equipment
- 1.8 Extricating, lifting and rescue equipment
- 1.9 Means for work at heights and over open depths
- 1.10 Isolation respirators
- 1.11 Self-rescue respirators
- 1.12 Pressure bottle filling plants
- 1.13 Protection clothes resistant to chemical agents, irradiation and radiation heat
- 1.14 Gas and liquid analyzers
- 1.15 Cleaning and decontaminating tools and equipment
- 1.16 Medical equipment for urgent care and patient transport
- 1.17 Fire extinguishers, extinguishing agents
- 1.18 Intervention equipment in the area of fire protection
- 1.19 Outfit components in the area of fire protection
- 1.20 Communication technology and systems
- 1.21 Electric fire alarm and components thereof
- 1.22 Stable and semistable extinguishing devices, water curtains and components thereof
- 1.23 Fire extinguishing water supply equipment
- 1.24 Fire doors, windows, valves, closures and stoppers
- 1.25 Heat and smoke discharging equipment
- 1.26 Means improving fire resistance of structures and means reducing combustibility of materials
- 1.27 Means for prevention and liquidation of environmental incidents
- 1.28 Escape and evacuation systems, fire marks
- 1.29 Fire service computer software
- 1.30 Technical literature
- 1.31 Servicing and repairs of fire extinguishers and standpipes
- 1.32 Complete supplies and services in fire protection and for liquidation of ecological damage
- 1.99 Fire equipment and services – other

2 SAFETY EQUIPMENT AND SERVICES

- 2.1 Mechanical and electromechanical barrier systems
- 2.2 Safe keeping facilities and safes
- 2.3 Closed-circuit television – CCTV and components thereof
- 2.4 Electronic security/safeguarding systems – ESS and components thereof
- 2.5 Systems and equipment for person and car entrance and attendance monitoring and control (ACS)
- 2.6 Electronic fire systems – EFS and components thereof
- 2.7 Special perimetric systems and components thereof
- 2.8 Goods protection
- 2.9 Object protection of artworks
- 2.10 Remote signal and data transmission, GSM and mobile telephones
- 2.11 Communication and monitoring systems, network operation centres
- 2.12 Centralized protection panels/conssoles, central control systems and components thereof
- 2.13 Intercoms and video-telephones
- 2.14 Communication and low-voltage systems for buildings, components for data networks and telecommunications
- 2.15 Wiring material for security systems
- 2.16 Accumulators, transformers, uninterruptured power supply (UPS)
- 2.17 Integrated safety systems for facilities and buildings
- 2.18 Systems and components for information and data security
- 2.19 Individual devices and equipment for electronic security systems
- 2.20 Protection of vehicles
- 2.21 Systems for finding of vehicles and persons
- 2.22 Special technological systems for the protection of authenticity, safety and security
- 2.23 Personal protection and safety means (paralysers, safety jackets and complements thereof)

- 2.24 Technical devices of the police, criminal and detective investigation engineering
- 2.25 Transport security devices and special vehicles
- 2.26 Instruments and equipment for safety and health protection at work
- 2.27 Security analyses, security concepts and projects
- 2.28 Security system designing
- 2.29 Guard, sentry and detective duty, operation of central protection console
- 2.30 Associations and corporations in the field of security
- 2.31 Acts, standards, periodicals, journals and literature
- 2.32 Quality control systems, authorized testing and certification
- 2.33 Accredited inspection authorities – inspections of ESS
- 2.34 Education, training and consulting activities in the field of security
- 2.99 Safety equipment and services – other

3 POLICE AND ANTI-TERRORIST EQUIPMENT AND SERVICES

- 3.1 Police vehicles, motorcycles, and special equipment thereof
- 3.2 Helicopters, pilotless means, and equipment thereof
- 3.3 Water guns
- 3.4 Blocks
- 3.5 Small-bore guns and ammunition
- 3.6 Explosives, pyrotechnics, chemicals
- 3.7 Police uniforms, working and training clothes, fabrics
- 3.8 Individual protection means
- 3.9 Ballistic protection means (vests, helmets, shields)
- 3.10 Information technologies for police management support
- 3.11 Information technologies for criminality and terrorism fighting support
- 3.12 Radio communication equipment and instruments
- 3.13 Equipment and instruments for wire communication
- 3.14 Eavesdropping equipment
- 3.15 Anti-eavesdropping equipment
- 3.16 Optical, optoelectronic, and laser instruments for the police
- 3.17 Equipment and devices for personal control and identification
- 3.18 Detectors of metals, explosives, drugs, luggage and parcel control systems
- 3.19 Perimeter protection systems
- 3.20 Space monitoring equipment and means
- 3.21 Pyrotechnical robots
- 3.99 Police and anti-terrorist equipment and instruments – other

4 FLOOD PROTECTION
